NPL Manager™ Announces Availability of NPLmanager.com

MANAGING NON-PERFORMING LOANS. SIMPLY.

Overland Park, KS — June 3, 2019 — Today at the 4th Annual NPL, Notes & Default Servicing Forum (West), **NPL Manager™** announced immediate availability of NPLmanager.com, a state-of-the-art cloud technology to exchange information between business partners for Non-Performing Loans (NPL) and Re-Performing Loans (RPL). NPL Manager™ employs high security and data encryption standards to protect all data elements within the hosted interchange environment.

Transforming the NPL Landscape

“This will be a game-changer in the NPL space, as no other commercially available product exists in terms of technology, connectivity, functionality, simplicity or price,” said Mike Zevitz, CEO at NPL Manager™. “With scalability from 10 to 10,000 loans and beyond, this cloud-based offering carves out a technology solution where no other comparable system exists.”

“I have yet to encounter a technology solution for NPLs as robust, timely and relevant as NPL Manager”, says George Caballero, a long-time industry veteran who has vast experience not only with asset purchases, but servicing loans as well.

“Our Research found a crucial issue that NPL Investors have repeatedly stated they don’t want to waste any more time going from website to website to get their information.” said David Maland VP Marketing at NPL Manager™. “NPL Manager brings all that information together in one place and allows them to continue to use their Service Providers.”
