

Provost’s Summer Learning Series

“Lunch and Learn” with your colleagues about work underway in the Provost’s Office.

These sessions are intended to be brief introductions into the activities and innovations taking place, with a few key goals in mind: ensuring you have a point of contact if you need more information; welcoming your input and questions; and, identifying new connections and synergies with other System Offices.

Each session will be 30 minutes in length, including presentation, Q&A, and discussion.

The series will be held on Tuesdays and Thursdays from Noon-12:30 p.m., running from May 4th through August 31st.

Some of you may know that I came to my position as Provost-in-Charge already a long-time member of the SUNY family. Four months into this new role and I realize there is always more to learn, to better understand.

Just as I tell our campuses that collaboration and communication across campuses is so important; I know there is value for us to do the same at SUNY System. This is especially true as we work together to realize the Chancellor’s vision of SUNY for All. I so hope you will join us for these “mini-sessions” and invite us soon to sessions of your own!

Dr. Shadi Sandvik
Provost in Charge
